

Civil Works

Enerven's Civil Works operations deliver end-to-end civil works projects to construct electrical and telecommunications networks, including high and low voltage works, fibre runs and pit and pipe construction.

We are the partner of choice for organisations such as Tesla, NBN and the Adelaide City Council, completing large-scale infrastructure projects or project managing multiple project elements and coordinating subcontractors on their behalf.

Our highly skilled team provides capabilities across all disciplines of civil projects. We are an end-to-end Tier 1 contractor with a strong track record of delivering turnkey projects to network utility operators such as SA Power Networks, ElectraNet and the NBN. We have held the position of Number 1 delivery partner on the NBN project nationally, a true testament to our consultative and collaborative approach and the skill and expertise of our staff.

We pride ourselves on thoroughly understanding each project and client's needs and we work with you to create a tailored solution that fulfils and exceeds expectations.

Our extensive experience in the industry, and as a subsidiary of SA Power Networks, make us a reliable player in the market with a service offering that is hard to beat.

Our Capabilities

Our team has the capabilities across all disciplines of civil projects, and we have constant access to industry experts and additional resources, as required.

Our capabilities include

- Single point of contact for managing projects to time, cost and quality
- High and Low Voltage works
- Underground electrical networks
- Fibre/copper cable hauling and termination
- Electrical telecommunications networks
- Civil construction/pit and pipe installation
- Stakeholder engagement
- Survey and quality assessment and control

Our Services

Enerven Civil Works' team can deliver end-to-end solutions, or provide specific services for individual project elements, depending on your resources and requirements.

Our services include:

- Project management - of small and large-scale projects
- Service locations (DBYD, Electromagnetic, Ground Penetrating Radar and Hydro Vac for low risk physical asset location)
- Mechanical and non-destructive excavation
- Subcontractor management for specialised installations
- Breakout and reinstatement of surface materials
- Installation of conduits and pits
- Installation of plinths, control cabinets and commercial switchboards and transformers
- Hauling of cable (fibre, electrical and copper) through pipes
- Safety, quality and environmental management
- Asbestos removal and disposal
- Waste water removal and disposal

Why Enerven?

Our highly skilled team provides capabilities across all disciplines of civil projects. We are an end-to-end Tier 1 contractor with a strong track record of delivering turnkey projects to network utility operators such as SA Power Networks, ElectraNet and NBN. We have held the position of Number 1 delivery partner on the NBN project nationally for over a year, a true testament to our consistent, consultative and collaborative approach and the skill and expertise of our staff.

We pride ourselves on thoroughly understanding each project and client's needs and we work with you to create a tailored solution that fulfils and exceeds expectations.

Our extensive experience in the industry make us a reliable player in the market with a service offering that is hard to beat.

Building on the 100-year foundation, Enerven is a proven expert in the development of major infrastructure, energy and telecommunications solutions.

Proactive, Collaborative, Dependable

Our values are the DNA of our business. They embody what we stand for and focus firmly on our customers' needs to accomplish long term, sustainable improvements that are reliable, maximise profitability and minimise costs.

Further to this, everything we do is underpinned by an unrelenting focus on safety and wellbeing.

We build our customers' vision. Our driving ambition is to connect you with tomorrow.

Who We Are

Enerven provides construction and maintenance services to clients both within SA and nationally. We believe innovation and technology will continue to drive efficiencies, but no more so than the experience and knowledge of our people.
