

Material Sales

Enerven's Material Sales business is a one-stop-shop in the procurement and delivery of electrical materials to national contractors, utilities and the mining and resource sector

Our team coordinates entire supply and procurement projects for clients, including sourcing materials, obtaining quotes, negotiating terms, ordering and delivery. This enables the client to focus on its own core business and operations, know that their procurement needs are met without having to dedicate internal resources to the process.

Enerven Material Sales provides services to projects ranging from Underground Residential Development (URD), road lighting, power line components and high-rise construction, as well as major infrastructure developments.

As a subsidiary of SA Power Networks, we have developed an excellent track record, outstanding service history and strong buying power. Combined with our staff's experience, product knowledge and our strong supplier networks we can negotiate the best and most cost-effective procurement solution for our clients.

We have access to a large stock base ranging from small to large goods, and due to our industry experience and understanding of energy infrastructure projects, we are also ideally placed to research suitable product options and make recommendations to our clients.

The team prides itself on understanding each client's individual needs and delivering a tailored solution that exceeds expectations. Working in partnership with clients is a vital element of the team's success, which is reflected in our long-term relationships with organisations such as, OzMinerals, BHP and Santos.

Our Capabilities

Put simply, our core competencies are to help you find the right electrical assets for the best price, and deliver it within your required timeframes. We look after the entire procurement process so you can focus on your overall project.

- Product development

Our Services

- Tailor-made procurement solutions with personalised account management
- Product research and recommendations

Some of the electrical assets we procure for clients include:

- Transformers
- High and Low Voltage cables
- Powerline conductor
- Insulators and crossarm brackets
- Lighting poles and luminaires
- Busduct
- PVC fittings and conduits
- Fuses
- Line hardware
- Switchgear

Why Enerven?

We develop solutions with customers and communities to enable them to choose, create and adapt how they connect with, make, store and use energy, on their terms. Enerven began as a division of SA Power Networks¹ and over fifteen years, has grown to be a market leader.

We pride ourselves on thoroughly understanding each project and client's needs and we work with you to create a tailored solution that fulfils and exceeds expectations.

Our extensive experience in the industry make us a reliable player in the market with a service offering that is hard to beat.

Building on the 100-year foundation, Enerven is a proven expert in the development of major infrastructure, energy and telecommunications solutions.

Proactive, Collaborative, Dependable

Our values are the DNA of our business. They embody what we stand for and focus firmly on our customers' needs to accomplish long term, sustainable improvements that are reliable, maximise profitability and minimise costs.

Further to this, everything we do is underpinned by an unrelenting focus on safety and wellbeing.

Additionally, Enerven is committed to encompassing end-to-end ethical supply chain management practices, and is recognised both nationally and internationally:

GECA Positive Procurement Pledge
Chartered Institute of Procurement & Supply (CIPS) Corporate Ethics Commitment.

We build our customers' vision. Our driving ambition is to connect you with tomorrow.

Who We Are

Enerven provides construction and maintenance services to clients both within SA and nationally. We believe innovation and technology will continue to drive efficiencies, but no more so than the experience and knowledge of our people.
